

Capital Gold Payroll Plus Pack

helping you get the most from your payroll solution

pegasus CAPITALGOLD Plus Pack

PAYROLL

The Plus Pack supports a range of new features to give you more flexibility, more security and the ability to use your payroll information more efficiently. Here's how:

Increased History Retention

Never worry about replacing lost payslips or finding past payroll information again. Retain up to 9 years of employee information including payments and deductions. The P11 and other multi-period reports can also include payroll history from previous years.

Full Security

Keep information secure with increased access control. With built-in security, confidential employee information is protected from unauthorised users. This includes full security for companies, menu items and individual fields on the employee records.

Improved Diary Management and Instant Communication

You can set Automatic Actions and reminders to the Absence Diary. Automatic Actions make it possible to schedule actions to happen at a future date, such as changing an employees' tax code in a new Income Tax year or adding expected leave dates for employees that are then processed in the Payroll run.

Payments and Deductions at the touch of a button

By creating your own formulas for payment and deduction calculations, which can be applied to specific employees, you don't have to spend time manually calculating. And with a maximum of 999 payments and deductions, all your needs should be catered for.

Create Reports for a clearer picture

Simply select from a large pre-written collection or write your own. Look back and report on prior year P11 and other multi-period reports, including prior year payroll history, up to nine years. Save time and generate batches of P45s within a user specified date range.

Company and Employee Flexibility

We understand that you may want to record certain things which are specific to your company. You can create employee templates and, for added flexibility, you can add up to five bank accounts for each employee and company.

Get HMRC information direct to your payroll

Using the Government Gateway, you can receive updates for Tax Codes and Student Loans from HMRC and update employee records automatically.

HMRC Approved

Capital Gold Payroll Plus Pack has been awarded the HM Revenue & Customs Payroll Standard Accreditation, signifying that the product conforms to current legislation and covers all those areas considered essential for the accurate calculation of PAYE, National Insurance and statutory payments.

The Plus Pack is perfect for companies looking to increase functionality without spending a fortune. With so much more functionality available to you, there's never been a better time to purchase the Plus Pack.
